HP E4210G Switch Series

Data sheet

Product overview
HP E4210G Switch Series are entry-level Gigabit Ethernet LAN switches with enterprise-class quality of service (QoS), security, and management features, delivering high value for network administrators looking for an economical edge device. Available Power over Ethernet (PoE) models are ideal for voice over IP and wireless networking installations, while non-PoE models are also available for simple port expansion. Dual-personality ports allow flexibility, including the ability to add 10 Gigabit Ethernet capability. Setting them apart from lower-end devices, the series switches support an industry-standard command-line interface, Web-based administration, and SNMP management. In addition, they support Intelligent Resilient Framework (IRF) stacking of up to four units.

Key features
- Entry-level switching, enterprise-class features
- Affordable price
- Out-of-the-box plug-and-play simplicity
- Access control lists for improved security
- Energy efficient; quiet, fan-free design (non-PoE)
Features and benefits

Quality of Service (QoS)

• **Layer 4 prioritization**: enables prioritization based on TCP/UDP port numbers

• **Traffic prioritization (IEEE 802.1p)**: allows real-time traffic classification into eight priority levels mapped to eight queues

• **Class of Service (CoS)**: sets the IEEE 802.1p priority tag based on IP address, IP Type of Service (ToS), Layer 3 protocol, TCP/UDP port number, source port, and DiffServ

• **Rate limiting**: sets per-port ingress enforced maximums and per-port, per-queue guaranteed minimums

• **Bandwidth shaping**:
  – **Rate limiting**: provides per-port, ingress-based enforced bandwidth maximums
  – **Guaranteed minimums**: provides per-port, per-queue egress-based guaranteed bandwidth minimums

• **Broadcast control**: allows limitation of broadcast traffic rate to cut down on unwanted broadcast traffic on the network

Management

• **Remote configuration and management**: is available through a secure Web browser or a command-line interface (CLI)

• **Manager and operator privilege levels**: enable read-only (operator) and read-write (manager) access on CLI and Web browser management interfaces

• **Management VLAN**: segments traffic to and from management interfaces, including CLI/telnet, a Web browser interface, and SNMP

• **RADIUS accounting support**: separates RADIUS accounting server support per SSID; provides detailed session, usage, and billing information for each client activity

• **Multiple configuration files**: can be stored to the flash image

• **Dual flash images**: provide independent primary and secondary operating system files for backup while upgrading

• **Secure Web GUI**: provides a secure, easy-to-use graphical interface for configuring the module via HTTPS

• **Command-line interface (CLI)**: provides a secure, easy-to-use command-line interface for configuring the module via SSH or a switch console; provides direct real-time session visibility

• **SNMPv1, v2c, and v3**: facilitate centralized discovery, monitoring, and secure management of networking devices

• **Port mirroring**: enables traffic on a port to be simultaneously sent to a network analyzer for monitoring

Connectivity

• **Optional 10 Gigabit Ethernet ports**: allow the addition of 10 Gigabit Ethernet connections for uplinks or high-bandwidth server connections; flexibly supports XFP, SFP+, or CX4 local connections

• **Auto-MDIX**: automatically adjusts for straight-through or crossover cables on all 10/100 and 10/100/1000 ports

• **Dual-personality functionality**: includes four 10/100/1000 ports or SFP slots for optional fiber connectivity such as Gigabit-SX, -LX, -LH, or 100-FX

• **IEEE 802.3af Power over Ethernet (PoE)**: provides up to 15.4 W per port to IEEE 802.3af-compliant PoE-powered devices such as IP phones, wireless access points, and security cameras

Manageability

• **RMON (remote monitoring)**: provides advanced monitoring and reporting capabilities for statistics, history, alarms, and events

• **Dual flash images**: provides independent primary and secondary operating system files for backup while upgrading

• **Full-featured console**: provides complete control of the switch with a familiar command-line interface (CLI)

• **Web interface**: allows configuration of the switch from any Web browser on the network

• **Multiple configuration files**: allow multiple configuration files to be stored to flash image

• **Software updates**: free downloads from the Web

• **Virtual stacking capability**: single IP address management for a virtual stack of up to 255 Comware-based 3Com legacy devices, including HP E4XXX and E55XX series switches
IEEE 802.1AB Link Layer Discovery Protocol (LLDP): automated device discovery protocol provides easy mapping using network management applications

sFlow (RFC 3176): wire-speed traffic accounting and monitoring

Advanced IRF technology stacking: locally connects up to four E4210G switches using 10 Gigabit Ethernet or CX4 local connections; improves resiliency by spreading aggregated links across multiple stacked units; provides simplified management with single IP management and a unified control interface per stack

Layer 2 switching

VLAN support and tagging: support IEEE 802.1Q, with 4094 simultaneous VLAN IDs

GARP VLAN Registration Protocol (GVRP): allows automatic learning and dynamic assignment of VLANs

IP multicast snooping and data-driven IGMP: automatically prevents flooding of IP multicast traffic

Jumbo packet support: supports up to 9220-byte frame size to improve performance of large data transfers

IEEE 802.1ad QinQ: increases the scalability of an Ethernet network by providing a hierarchical structure; connects multiple LANs on a high-speed campus or metro network

Layer 3 routing

Static IP routing: provides manually configured Layer 3 routing

Security

Access control lists (ACLs): provide IP Layer 3 filtering based on source/destination IP address/subnet and source/destination TCP/UDP port number

RADIUS/TACACS+: eases switch management security administration by using a password authentication server

Secure Shell (SSHv2): encrypts all transmitted data for secure, remote command-line interface (CLI) access over IP networks

Secure Web management with HTTPS and SSL: encrypts all HTTP traffic, allowing secure access to the browser-based management GUI in the switch

IEEE 802.1X and RADIUS network logins: control port-based access for authentication and accountability

Secure File Transfer Protocol (FTP): allows secure file transfer to and from the switch; protects against unwanted file downloads or unauthorized copying of switch configuration file

Port security: allows access only to specified MAC addresses, which can be learned or specified by the administrator

MAC address lockout: prevents particular configured MAC addresses from connecting to the network

Switch management logon security: can require either RADIUS or TACACS+ authentication for secure switch CLI logon

Secure management access: securely encrypts all access methods (CLI, GUI, or MIB) through SSHv2, SSL, and/or SNMPv3

Custom banner: displays security policy when users log in to the switch

Automatic VLAN assignment: automatically assigns users to the appropriate VLAN based on their identity and location and the time of day

Management password: provides security so that only authorized access to the Web browser interface is allowed

STP BPDU port protection: blocks Bridge Protocol Data Units (BPDUs) on ports that do not require BPDUs, preventing forged BPDU attacks

Dynamic IP lockdown: works with DHCP protection to block traffic from unauthorized hosts, preventing IP source address spoofing

DHCP protection: blocks DHCP packets from unauthorized DHCP servers, preventing denial-of-service attacks

Dynamic ARP protection: blocks ARP broadcasts from unauthorized hosts, preventing eavesdropping or theft of network data

STP Root Guard: protects root bridge from malicious attack or configuration mistakes

Convergence

IEEE 802.1AB Link Layer Discovery Protocol (LLDP): is an automated device discovery protocol for easy mapping by network management applications

Automated voice VLAN assignment: recognizes IP phones and automatically assigns voice traffic to a dedicated VLAN for IP phones
Warranty and support

• **Lifetime warranty:** for as long as you own the product with advance replacement and next-business-day delivery (available in most countries)*

• **Electronic and telephone support:** limited electronic and telephone support is available from HP; refer to [www.hp.com/networking/warranty](http://www.hp.com/networking/warranty) for details on the support provided and the period during which support is available

• **Software releases:** refer to [www.hp.com/networking/warranty](http://www.hp.com/networking/warranty) for details on the software releases provided and the period during which software releases are available for your product(s)
## HP E4210G Switch Series

### Specifications

#### Ports

- **HP E4210-24G Switch (JF844A)**
  - 20 RJ-45 auto-sensing 10/100/1000 ports (IEEE 802.3 Type 10Base-T, IEEE 802.3u Type 100Base-TX, IEEE 802.3ab Type 1000Base-T; Media Type: Auto-MDIX, Duplex: 10BaseT/100Base-TX: half or full, 1000Base-T: full only)
  - 4 dual-personality 10/100/1000 ports (IEEE 802.3 Type 10Base-T, IEEE 802.3u Type 100Base-TX, IEEE 802.3ab Type 1000Base-T; Media Type: Auto-MDIX, Duplex: 10BaseT/100Base-TX: half or full, 1000Base-T: full only)
  - 1 RJ-45 serial console port
  - Supports a maximum of 2 10-GbE ports

- **HP E4210-48G Switch (JF845A)**
  - 44 RJ-45 auto-sensing 10/100/1000 ports (IEEE 802.3 Type 10Base-T, IEEE 802.3u Type 100Base-TX, IEEE 802.3ab Type 1000Base-T; Media Type: Auto-MDIX, Duplex: 10BaseT/100Base-TX: half or full, 1000Base-T: full only)
  - 4 dual-personality 10/100/1000 ports (IEEE 802.3 Type 10Base-T, IEEE 802.3u Type 100Base-TX, IEEE 802.3ab Type 1000Base-T; Media Type: Auto-MDIX, Duplex: 10BaseT/100Base-TX: half or full, 1000Base-T: full only)
  - 1 RJ-45 serial console port
  - Supports a maximum of 2 10-GbE ports

- **HP E4210-24G-PoE Switch (JF846A)**
  - 20 RJ-45 auto-negotiating 10/100/1000 PoE ports (IEEE 802.3 Type 10Base-T, IEEE 802.3u Type 100Base-TX, IEEE 802.3ab Type 1000Base-T, IEEE 802.3af PoE; Media Type: Auto-MDIX; Duplex: 10BaseT/100Base-TX: half or full, 1000Base-T: full only)
  - 4 dual-personality 10/100/1000 ports (IEEE 802.3 Type 10Base-T, IEEE 802.3u Type 100Base-TX, IEEE 802.3ab Type 1000Base-T; Media Type: Auto-MDIX, Duplex: 10BaseT/100Base-TX: half or full, 1000Base-T: full only)
  - 1 RJ-45 serial console port
  - Supports a maximum of 2 10-GbE ports

#### Physical characteristics

- **Dimensions**
  - HP E4210-24G Switch (JF844A): 11.8(d) x 17.4(w) x 1.7(h) in. (29.97 x 44.2 x 4.32 cm) (1U height)
  - HP E4210-48G Switch (JF845A): 11.8(d) x 17.4(w) x 1.7(h) in. (29.97 x 44.2 x 4.32 cm) (1U height)
  - HP E4210-24G-PoE Switch (JF846A): 16.9(d) x 17.4(w) x 1.7(h) in. (42.93 x 44.2 x 4.32 cm) (1U height)

- **Weight**
  - HP E4210-24G Switch (JF844A): 9.0 lb. (4.08 kg)
  - HP E4210-48G Switch (JF845A): 10.4 lb. (4.72 kg)
  - HP E4210-24G-PoE Switch (JF846A): 15.2 lb. (6.89 kg)

#### Memory and processor

- **Processor**
  - Broadcom 5836 @ 264 MHz, 16 MB flash, 64 MB RAM; packet buffer size: .75 MB
  - Broadcom 5836 @ 264 MHz, 16 MB flash, 64 MB RAM; packet buffer size: 1.5 MB
  - Broadcom 5836 @ 264 MHz, 16 MB flash, 64 MB RAM; packet buffer size: .75 MB

#### Mounting

- Mounts in an EIA standard 19-in. telco rack or equipment cabinet (hardware included)

#### Performance

- **Throughput**
  - up to 65.5 million pps
  - up to 101.2 million pps
  - up to 65.5 million pps

- **Routing/Switching capacity**
  - 88 Gbps
  - 136 Gbps
  - 88 Gbps

- **Routing table size**
  - 32 entries
  - 32 entries
  - 32 entries

#### Environment

- **Operating temperature**
  - 32°F to 104°F (0°C to 40°C)
  - 32°F to 104°F (0°C to 40°C)
  - 32°F to 104°F (0°C to 40°C)

- **Operating relative humidity**
  - 10% to 95%, non-condensing
  - 10% to 95%, non-condensing
  - 10% to 95%, non-condensing

- **Non-operating/Storage temperature**
  - 14°F to 158°F (-10°C to 70°C)
  - 14°F to 158°F (-10°C to 70°C)
  - 14°F to 158°F (-10°C to 70°C)

- **Non-operating/Storage relative humidity**
  - 10% to 95%, non-condensing
  - 10% to 95%, non-condensing
  - 10% to 95%, non-condensing

#### Electrical characteristics

- **Voltage**
  - 100-240 VAC
  - 100-240 VAC
  - 100-240 VAC

- **Frequency**
  - 50 / 60 Hz
  - 50 / 60 Hz
  - 50 / 60 Hz

#### Safety

#### Emissions

- VCCI Class A; EN 55022 Class A; EN 55024; ICES-003 Class A
- VCCI Class A; EN 55022 Class A; EN 55024; ICES-003 Class A
- VCCI Class A; EN 55022 Class A; EN 55024; ICES-003 Class A

#### Management

- IMC - Intelligent Management Center; command-line interface; Web browser; out-of-band management (serial RS-232C), SNMP Manager, Telnet, IEEE 802.3 Ethernet MB
- IMC - Intelligent Management Center; command-line interface; Web browser; out-of-band management (serial RS-232C), SNMP Manager, Telnet, IEEE 802.3 Ethernet MB
- IMC - Intelligent Management Center; command-line interface; Web browser; out-of-band management (serial RS-232C), SNMP Manager, Telnet, IEEE 802.3 Ethernet MB

#### Services

- Refer to the HP website at www.hp.com/networking/services for details on the service-level descriptions and product numbers. For details about services and response times in your area, please contact your local HP sales office.
