Compatibility Chart Last updated w37 2008

* Step to next/previous preset channel via remote control is not supported on the HPM-82, HPM-85 & HPM-90 when used in FM radio mode with W200, HPM-90 does not support RDS information when listening to the FM radio

**Please note that in order to have full compatibility between the MBW-100/MBW-150 and your Symbian OS phone you need to have software release MR-C or later. If you do not have this release some functionality may not work. Track title display is not supported with the following phone models: K610, K618, K790, K800, K818, M600, P990, V630, W710, W830, W850, W950, W958, Z610, Z710. You can find which SW release you have on your phone or upgrade to the new version by using Sony Ericsson Update Service.

***If you have purchased a K630i, K850i, V640i, or W910i please update your firmware in the next release in January 2008 for optimal performance. This chart is published by Sony Ericsson Mobile Communications AB, without any warranty. Improvements and changes to this documentation necessitated by typographical errors, inaccuracies of current information, or improvements to the products, may be made by Sony Ericsson Mobile Communications AB at any time and without notice. The products and services displayed in this documentation may not be available in your particular country or locality, or at all. All rights reserved.

**** In order to have full compatibility between the HGE-100 and your Symbian OS phone you need to have software revision MR2 (software release R2A) or later.

***** Access to the system connector for use with eg Stereo Headphones is not possible when using ICE-40 with G905, W910 or Z555

****** Access to the system connector for use with eg Stereo Headphones is not possible when using ICE-40 with F305, K530, K660, K810, K850, R306, T700, W380, W580, W660, W760, W890, W910i, W980 or Z780
